

# HOW MUCH COULD I MAKE?

Effectively, the sky is the limit. If your current business network is large and you know many large companies that are owed money or could use a world class collection solution then you could easily make 5 figures, and in some cases, 6 figures per month. It sounds crazy but it is reality.

"Five and six figure monthly checks are completely possible"

\*Note: size of referral partner's business network is the largest variable for large returns

One of Baker Group's largest sources of great, new clients is from our current clients and word of mouth. Instead of just saying 'thank you' we also created a referral partner system to show our thanks to our partners by paying monthly residual commissions on referrals.

## WHY BECOME A REFERRAL PARTNER?

A better question would actually be, "Why not become a Baker Referral Partner?". If you know anyone in business, there is a good chance that they currently have, or will have, unpaid invoices they need help collecting, and that's what we specialize in.

If you know a lot of people in business, there is a good chance that many group conversations likely revolve around payment issues. If you have done enough business you know that payment issues and cash flow issues are likely never going away. With that said, the opportunities with being a Baker Referral Partner will likely never go away as well.
